

# Sprint 1 User Stories

## Connect to server(s)

The user clicks a button which shows a form with connection settings. When the user clicks connect, the app makes a connection to the specified IRC-server.

## Disconnect server(s)

The user clicks a disconnect button in the actionbar menu and the app disconnects the specified IRC-server.

## Change nick

The user clicks a button in the actionbar menu to change nick. A popup with a textfield appears, which the user writes his new nickname in. The app tells the IRC-server to change nickname.

## List connected channels

Shows a list of all connected channels in the left drawer. This list is placed in the navigation drawer.
