# Sprint 3 User Stories

## Channel info messages (2 story points)

As a user, I want to know when somebody joins or leaves, or when somebody changes nickname.

Whenever a user leaves or joins a channel or changes nickname, a message is displayed in the "chat view".

## Search users and channels (5 story points)

As a user, I want to be able to search for users and channels.

To search for users or channels the respective navigational drawer is opened and the search field is pressed. The search list filters instantaneously. Clicking a search result will join the channel or query the user, respectively.

## Invite user (2 story points)

As a user, I want to be able to invite users to channels.

The user clicks a invite button in the actionbar menu and a popup is shown where the user write the nick of the user that will be invited to the currently active channel.

## Search scrollback (2 story points)

As a user, I want to be able to search the scrollback in a channel.

Pressing the search icon in the actionbar opens the scrollback search view. Typing will search the scrollback.

## Select what should be highlighted (3 story points)

As a user, I want to be able to select which words should give me a highlight.

Pressing the settings item in the actionbar menu starts the settings activity. There pressing "hilights" opens a popup where hilights can be entered.

## Chat scrolls down automatically (2 story points)

As a user, I want the chat to scroll down to the bottom when I receive new messages.

Chat scrolls down whenever new messages are received. Chat scrolls down to where it was when the soft keyboard is opened.
